TECHNICAL DATA SHEET

CLOUD 9 - NEUTRALIZER

PRODUCT CODE: VSS250

CLOUD 9 - NEUTRALIZER is used as a sour/neutralizer in our 4 or 5 product laundry systems. This formula is designed to bring the pH of fabric back to neutral, preventing skin irritation and damage to linens. In addition VSS250 contains materials that prevent rust and other particles found in the water from redepositing onto the fabric.

DIRECTIONS FOR USE:

This product is designed to be pumped directly from its shipping container into the laundry cycle. A VSS representative will set levels appropriately with water conditions and soil loads.

*NOTE: pH levels after cycle is complete should be at the target range; if above or below additional damage/irritation can occur.
